MINNEAPOLIS MALL OF AMERICA

The JW Marriott Brand Identity

The JW Marriott Brand Identity was designed to provide the brand with a modern representation in the luxury category. The identity communicates our brand's personality with a clean, elegant look for all guest touchpoints.

Brand Positioning

Inspired by J. Willard's approach to life, JW Marriott provides a haven where every detail is taken care of, so guests are free to focus on themselves—mind, body, and spirit.

Core Values

Each characteristic is a reflection of the type of person J. Willard was and can be seen in everything we do—from our interactions with guests to the way we design our spaces and craft our experiences.

WARM

Following in J. Willard's footsteps, we welcome our guests with a warmth that conveys a deep sense that "all is well".

NATURAL

We put our guests at ease by projecting authenticity through everything we do.

INTENTIONAL

Like J. Willard himself, we deeply understand our impact on the people and world around us.

UPLIFTING

We seek to bring joy to every experience and be someone's reason to smile.

Brand Audience

THE MINDFUL & FULFILLED

Those who are aware of themselves and their relationship with the world pursue experiences that help them be fully present, foster connections and revitalize the mind, body and spirit.

Brand Pillars

These are the three points that differentiate JW Marriott from other luxury hospitality brands. Inspired by the way our founder took care of himself and others, they help bring our positioning, The Whole You, to life.

BE MINDFUL & PRESENT

Where guests can pause, LIVE IN THE PRESENT, and appreciate every moment.

NOURISH THE SOUL

Where guests can take care of themselves MIND, BODY, AND SPIRIT, so they can be there for others.

COME TOGETHER

Where people can be together for MEANINGFUL MOMENTS. Nothing was more important to J. Willard than spending time and connecting with his family, friends, and associates.
